

New and Seasoned Bowlers,

We are proud of our new lawn bowling clubhouse with its surrounding artificial bowling surfaces (greens) and walkways, which makes our facility impressive. As the Greens keeper I appreciate new and seasoned members who take care when on the greens and when using lawn bowling equipment.

The Board wants everyone to enjoy your games, however, as a reminder please ensure that you:

- **Remove your (street) shoes, before walking on the greens and wear acceptable lawn bowling footwear.**
- **Refrain from using Grippo (balm) on your hands, as it transfers from your bowls onto the greens.**
- **Refrain from leaning on any implements (yardsticks, pushers, bowl lifters, ditch steps etc.) when playing on the greens as it may pierce the artificial bowling surface.**
- **Refrain from carrying metal score boards over or across the greens. Damage to a green can easily occur, when a scoreboard is dropped on the surface.**
- **Refrain from pushing lawn bowling 'pushers' over the concrete walkways. They must be pushed only when on the greens and then carried to the equipment storage. Moving a 'pusher' over concrete walkways will damage the plastic wheels.**
- **Finally, please refrain from drinking or eating on the greens. There are tables and chairs available for members to eat or drink.**

**Lawn Bowlers Code of Ethics includes:** Care for and respect property and assets of the Club and its members.

See you on the greens.

Glyn Wide
