

Dear Members.

Now that the weather is getting colder there are rules and guidelines that must be issued as far as when bowling will be allowed. This is both for the protection of the greens and, more importantly, the safety of our members.

The greens will be closed if there is any presence of ice, frost, or snow. No bowling will be allowed in these conditions. It is absolutely forbidden to use any implement to remove snow or frost from the greens.

When entering the club premises at any time during the winter months, please be careful on sidewalks and steps. They may be slippery.

We take the safety of our members very seriously and ask that you all use your common sense when attending the club.

Please feel free to let a member of the board know if you see anything that may be unusual, or dangerous. We will close the greens as necessary.

The club calendar on the NVLBC website will be updated if there will be any extended closures.

Thank you for your understanding and cooperation.
